Russia's ultimatum to Bulgaria remains unanswered. The crown council of that state is reported to have discussed for several hours the terms of the ultimatum without reaching a decision.

London takes it for granted that the policy of King Ferdinand and his ministers is so shaped as to favor the central powers; but strong opposition to participating in the war has revelped in Sofia.

The Bulgarian premier, M. Radoslavoff, has declared, according to a Berlin newspaper:

"We confront war and must defend our national interests. We must wrest from our enemies everything they took from us two years age."

"General Savoff, the former Bulgarian in minister of war, is quoted as saying: "Every Bulgarian who breaks away from Russia commits an act of treason towards his country."

BIG LOAN OVERSUBSCRIBED \$5,000,000 TO \$10,000,00

argest Subscription Was for \$35,000, 000 Lot of Clerical Work Involved.

New York, Oct. 5.—The amount of oversubscription to the \$500,000,000 Anglo-French bond issue, it was said authoritatively tonight, is appreciable in the number of subscribers but not considerable in terms of dollars and cents. Most of these subscribers came in for relatively small amounts. With oday it was announced that the total of all subscriptions would not be made

There seemed to be good grounds for There seemed to be good grounds for the reports that the oversubscription would be between \$5,000,000 and \$10,000,000, but nothing official was forthcoming to confirm this. In this connection it was learned tonight that the six largest applications alone took care of \$100,000,000 of the issue. The largest subscription was for \$25,000,000; the next was for \$28,000,000; the third for \$15,000,000 and the next three for \$10. \$15,000,000, and the next three for \$10,-000,000 each. Some idea of the immense amount of clerical and other work involved in the flotation of the loan my be gleaned from the fact that 35 groups of underwriters in as many cities and sections of the country participated. The New York group, largest of the lot, consisted of 66 financial institutions. said tonight there was no doubt that the women workers, with the possible exception of a hundred or less, soon would be affiliated with either the machinists or the electrical workers. The women already have been forced out to the plant by its suspension in the producing end, due to the strike of the members of various crafts, the last of whom, the pattern makers, core makers and moulders, left today.

The delay in perfecting the women's organization came today over the demand of many of them that they be taken into the machinists' craft. It was discovered, however, that many of the most enthusiastic are earning less than \$6 a week, and as the machinists the most enthusiastic are earning less than \$6 a week, and as the machinists pay a weekly strike benefit of \$8 officials of the machinists are doubtful if it would be well to admit the applicants to membership. The question of dues enters into the situation, too, the machinists charging twice as much as the electrical workers, and to this many women are opposed.

New York Oct. I.—Members of the New York stock exchange took action today to curb the nation-wide speculation in so-called war stocks whose rapidly soaring values have led a runaway market through million and million and a half share days comparable only with the boom days of speculation in 1907.

Fast a Sudday Rest

Banks, trust companies and financial houses of New York, alarmed at the awiftly ascending tendency of the market and fearful of a sudden break in values, have set the financial brakes and applied pressure on stocq exchange houses to diminish if not entirely end, the riot of speculation. Many stock exchange houses responded to that pressure today by notifying their clients that they would have to double the amount of their margins in these specialties.

Heretofore the chief speculative stocks, with a few notable exceptions, have been carried on a 20-point mar-sin. Hereefter the margin will be 40 points, at least until such time as the market becomes normal again.

Many Forced to Sell. When the demand for more margin was made today many buyers were unable to comply with it, and a wave of selling orders swept over the exchange, carrying stocks down from 4 to 15 points. A recovery was noted later in the session, but the close was off from 3 to 16 points from the high level.
